SUMMARY

Digital Health Engineering Technology student with hands-on experience in SQL, Python, Tableau, Excel, data cleaning, dashboard reporting, and software testing. Experienced in transforming datasets, validating data quality, building KPI dashboards, and communicating clearly in customer-facing and team environments. Interested in Data Analyst and Healthcare Analytics roles focused on reporting, data quality, and data-driven decision-making.

TECHNICAL SKILLS

Data Analytics & BI: SQL, Python, Tableau, Microsoft Excel, data cleaning, data validation, KPI reporting, dashboard development

Database & Reporting: joins, aggregation, data preprocessing, data visualization, business metrics, healthcare data analysis

Programming & Tools: C#, Java, JavaScript, HTML/CSS, REST APIs, Git, VS Code

Testing & QA: Selenium automation, Postman API testing, test cases, bug reporting, Jira, documentation

Professional: communication, teamwork, customer service, problem solving, confidentiality, attention to detail

EDUCATION

Centennial College - Digital Health Engineering Technology, Advanced Diploma | Toronto, ON | Sep 2025 - Present (Expected Jun 2028)

- Relevant coursework: database concepts, web application development, software systems design, healthcare information systems, algorithms, discrete mathematics.

Hanoi Law University - Bachelor of Laws (LL.B.) | Hanoi, Vietnam | Sep 2021 - May 2025

RELEVANT EXPERIENCE

Techcombank - Data Analyst Intern | Hanoi, Vietnam | Apr 2025 - Aug 2025

- Cleaned, transformed, and validated financial datasets using SQL and Python to improve reporting accuracy and data integrity.
- Built Tableau dashboards to track transaction trends, customer metrics, and business performance indicators.
- Reviewed data outputs, investigated inconsistencies, and documented repeatable reporting steps for business users.

Agribank - Software Testing Volunteer | Hanoi, Vietnam | Nov 2023 - Mar 2024

- Tested mobile banking app modules, identified UI/UX issues, documented defects, and shared findings with the IT team.

PROJECTS

Healthcare Analytics Dashboard - SQL, Python, Tableau | Sep 2025 - Present

- Cleaned and analyzed 50,000+ patient records using SQL and Python; built 6 Tableau KPI dashboards for department visibility.
- Visualized patient volume, department workload, and reporting metrics to support operational insights.

Automated QA & Testing Suite - Selenium, Python, Postman, Jira | Jun 2025 - Aug 2025

- Designed test plans, executed automated Selenium/Python scripts, tested REST APIs with Postman, and logged defects in Jira.

Clinic Web Application - HTML/CSS, JavaScript | May 2025 - Jun 2025

- Developed a responsive clinic interface with interactive JavaScript features for appointment and patient-information workflows.

ADDITIONAL EXPERIENCE

Vietgarden - Chef & Server | Toronto, ON | Jul 2025 - Present

- Manage front-of-house service and back-of-house food preparation in a high-volume restaurant environment.
- Take orders, provide menu recommendations, resolve guest inquiries, and follow food safety and presentation standards.

Uniqlo - Retail Sales Associate | Hanoi, Vietnam | Jan 2024 - Dec 2024

- Assisted 100+ daily customers with styling choices, fitting rooms, product recommendations, floor replenishment, and register operations.

Indochine Counsel - Law Clerk | Hanoi, Vietnam | Jun 2024 - May 2025

- Supported case management, legal document preparation, research, and confidential record administration.

Freelance Tutor - German A1 Tutor | Hanoi, Vietnam | Jan 2023 - Mar 2024

- Tutored beginner German students through tailored lesson plans and progress-focused practice.
